COMPREHENSION QUESTIONS

1- How old are the two children?

Sarah is ten years old, Austin is twelve years old.

2- What do they need?

Both need an IV.

3- What are they scared of?

They are scared because they had a bad experience being stuck before.

4- What will be used for Sarah?

For Sarah, the nurse will use a vein locator machine to find the vein.

5- What will be used for Austin?

Ethyl Chloride spray is used to numb the area instantly.

6- What can be used for babies?

Another popular pain reducer is giving a baby a pacifier dipped in sweet cheese, a glucose solution.
